Dear Ms. DePoy:

Bolton Airport, Columbus Ohio
Forecast Acceptance

On May 13, 2002 the FAA completed its review of Chapter 2 "Setting the Expectations" and Chapter 3 "Aviation Forecasts" for the subject airport. Based on our review we provided a verbal approval of the forecast on May 13, 2002, this letter confirms our verbal approval. It should be noted that FAA's "Terminal Area Forecast" (TAF) is being revised to try to account for the tragic events of last September.

All planning reports must contain the following statement "The preparation of this document may have been supported, in part, through the Airport Improvement Program financial assistance from the Federal Aviation Administration (Project Number 3-39-0026-09-01) as provided under Title 49, United States Code, section 47104. The Contents do not necessarily reflect the official views or policy of the FAA. Acceptance of this report by the FAA does not in any way constitute a commitment on the part of the United States to participate in any development depicted therein nor does it indicate that the proposed development is environmentally acceptable in accordance with appropriate public laws."
